## Activist

Our pulse to resist Moves our cultural resistance I'm living this life Inside a civil tribe demised Improve my old mind Breaking all rules, absorbing what I may find

Our manner to protect Destroys what's left for protection Believing in symbols The church will fool our souls Prove you my role Acting against undesired control

Don't fear your left Don't trust your right Activist

Our way of seeing progress Makes us walk towards repression Disturbing our peace In the name of self defense Being felt by all Our violent taste for the humans fall

Don't fear your left Don't trust your right Activist
