

Young Yummy Love

Serebro

Come on take a ride right now, oh
Am I looking nice in your eyes? Hey
Play with me and meltdown in my arms
Ain't no other drops till it alarms
And when I swallow you tonight

Right into your central part
I will send my love with eye chat
And I'll blow it in the air no sweat
We can stay forever here I bet
But we are speeding for the line

This is young yummy love
This is young yummy love
Melting down in your love
This is young yummy love

I still feel the same by your side, oh
All about to hold you day and night, hey
Feel like it's just you and me around
And the song will cover by it's sound
And when your lips slow down the time

Thinking back of flips we have done, oh
You and me to win again this fight, oh
All around we step the place on top
Ain't no cross a line no scream a word
And then you swallow me tonight

This is young yummy love
This is young yummy love
Melting down in your love
This is young yummy love
