

Every Single Day

Serena Ryder

Holds my attention
Sharpens my laurentien
Makes me want apple pie
Love has never lost me
Nothing that can stop me
Gotta give you one more try

Yeah, every single day
Yeah, every single day

It steels your wheel, it cops your feel
It pops your cap sits on your lap
It fills your tank it turns your crank
It mends your knees and turns your keys

Cranks your chain and flouts your name
and flies your plane and wins your game
Cranks your cork and shines your forks
and reigns your hell and rings your bell

Yeah every single day
Yeah every single day

Found myself on all fours
Trying to fight my own war
Sadness in summertime
Now it's time to make up
Dreams won't let you wake up
Gotta give you one more try

Yeah every single day
Yeah every single day
Yeah every single day
Yeah every single day

Yeah, oh, oh, oh, oh, oh
