

My summer love

Sérgio Mendes

The sun's in the sky
See the butterflies dance
I'm feeling so high
In this crazy romance
First time I saw you look my way
When we walked in the sand
I couldn't think of what to say
Then you gave me your hand

You were my summer love
Under the stars above
The color on the sea was indigo
I promise I would never let you go
You were my summer love
Underneath the stars above
You're the only one I'm dreaming of
And you will always be my summer love

I told you goodbye
Said it never could last
I though you were mine?
Were a thing of the past
But Ive been counting everyday
For this winter to end
I just cant wait to fly away
And be with you again

You were my summer love
Under the stars above
The color on the sea was indigo
I promise I would never let you go
You were my summer love
Underneath the stars above
You're the only one I'm dreaming of
And you will always be my summer love
