

# The Sound of One Song (Depende de Nós)

Sérgio Mendes

The sound of one song  
Can be heard on the winds of this mornin'  
It's a prayer that this world we were born in  
Will survive until it can be ours

In the sound of one song  
All the children of earth stand united  
Now a candle of peace has been lighted  
And its glow can be seen from afar  
And its message outshines every star

This planet must understand  
That we're a family of man  
And we won't let tomorrow slip  
Through our hand

Our voice will be strong  
'Cause it comes from the heart and the spirit  
And we sing so the whole world will hear it  
And believe in the sound of one song

This planet must understand  
That we're a family of man  
And we won't let tomorrow slip  
Through our hand

Our voice will be strong  
'Cause it comes from the heart and the spirit  
And we sing so the whole world will hear it  
And believe in the sound of one song

The sound of one song  
Can be heard on the winds of the mornin'  
It's a prayer that this world we were born in  
Will survive until it can be ours

In the sound of one song  
La la lala la lala la lala  
La la lala la lala la lala  
La la lala la lala la laa  
La lala la laa  
La la lala la lala la lala  
La la lala la lala la lala  
La la lala la lala la...
