

## Moto GP

## Seven Witches

The ultimate in two wheeled flight  
The average rider would die of fright  
Prototype moto machines  
Light as air and downright mean

Rage on  
Full throttle - scream and hold on  
Life blurs - at 200 miles per hour

It doesn't get faster than this  
Every season's a full - on blitz  
Squeeze a few more horses out  
And shed some pounds to win the bout

All hail - praise the mighty racing gods  
Fearless - defying death against all odds
