

## Sunnydale High

### Seven Witches

You know the moon is full tonight  
I'm guided onward by it's light  
Down to Sunnydale  
Because the hellmouth calls to me  
It's god a pull you can't believe  
Here begins my tale

And nothing's gonna stop my reign

I've got to take the slayer out  
Burn her down without a doubt  
She alone defiles  
Because the world will end tonight  
But not without a bloody fight  
Listen to my lies

And now I'm getting high on death  
Intoxicated with the thought of your last breath  
And if you want to live your life in endless night  
Just follow me on down to Sunnydale High

The gears of hate are turning  
Forces of good are learning  
That the end is near

So if you want to live your life in endless night  
Just follow me on down to Sunnydale High

But best laid plans go oft away  
And now I know I'm gonna die  
Caught within her snare  
So resurrect my darkened shape  
And all the earth I'll surely rape  
Chosen one beware

Sunnydale High, Sunnydale High
