

# Dance With Madness

Shakra

Deep in the night I hear a scream  
But no one it seems is near  
Slowly I try to face my thoughts  
Hope I didn't wake up in a dream

I won't keep bogging down into dullness  
I'm stuck between realities  
Wanna hold on to my dance with madness and the fear

Thousands of tongues blow up my head  
Convincing me of different truths  
Amazed and confused it dawns on me  
This must be reality!

I won't keep bogging down into dullness  
I'm stuck between realities  
Wanna hold on to my dance with madness and the fear

We are all just like puppets of society  
Even if we think we'll win  
Somebody else pulls the strings

I won't keep bogging down into dullness  
I'm stuck between realities  
Wanna hold on to my dance with madness and the fear
