

If you feel like you're forgotten and alone  
Call me I'm your friend  
Till the very end  
If you pay me well I'll soon be here to tell  
You're the very best  
Better than the rest

Money is  
What you need  
To make the world  
Go round and round (my friend and)  
In this world  
Nothing's free  
For money makes  
The world go round

We will never fight till 3 o'clock at night  
Money makes me do  
All you want me to  
Shall I be the brother  
That you never had?  
Or your drinking mate  
Gonna take my fate

Money is  
What you need  
To make the world  
Go round and round (my friend and)  
In this world  
Nothing's free  
For money makes  
The world go round
