Another lie - You've gone too far You're the queen of broken hearts Now look at me - How does it feel To see a man who's hurt so deep

Tell me baby, tell me Can you sleep at night Tell me baby, tell me After all your lies You gotta pay the price

Another night - And you're not there A lonely man - An empty bed Playing games ain't no crime As long as there's no heart on fire

Tell me baby, tell me Can you sleep at night Tell me baby, tell me After all your lies You gotta pay the price

You were all I ever had You are all I need Girl I love you, I hate you What have you done to me

Tell me baby, tell me Can you sleep at night Tell me baby, tell me After all your lies You gotta pay the price
