

## It's Never Too Late

Sham 69

So many people inside of me  
I must find the one I want to be  
All my life I've wanted to know  
It's my life so I can't let go

Everything we say and do  
So many people will laugh at you  
All my life I've wanted to know  
It's my life so I can't let go

It's never too late  
To find out who you are  
It's never too late  
To find out who you are

Sometimes I think am I really me  
Sometimes I think am I really you  
All my life I've wanted to know  
It's my life so I can't let go

It's never too late  
To find out who you are  
It's never too late  
To find out who you are
