

# So Long

## Shaman's Harvest

Now for so long you made me sweat  
After all this time, what's the benefit  
Use your eyes and ears of my life  
But if your gone in just one night

Why did it take you so long  
Why did it take you so long  
Why did it take you so long  
It took you so long to leave  
Why did it take you so long  
Why did it take you so long  
Why did it take you so long  
It took you so long to leave me

You say wake up, well consider me woke  
You say you got your friends but I got your goat  
You left me to wait, wait, wait, wait, wait, wait  
Here without you  
Now your coming to stay, stay, stay, stay  
Bitch it ain't always about you

Why did it take you so long  
Why did it take you so long  
Why did it take you so long  
It took you so long to leave  
Why did it take you so long  
Why did it take you so long  
Why did it take you so long  
It took you so long to leave me

After all this time why'd it take so long  
All this time why'd it take so long  
After all this time why'd it take so long  
Why just hide, hide, party party

Why did it take you so long  
Why did it take you so long  
Why did it take you so long  
It took you so long to leave  
Why did it take you so long  
Why did it take you so long  
Why did it take you so long  
It took you so long to leave me  
Why did it take you so long  
Why did it take you so long  
Why did it take you so long  
It took you so long to leave  
Why did it take you so long  
Why did it take you so long  
Why did it take you so long  
It took you so long to leave me
