

Breath of Life

Shannon Noll

I was thinking slowly, frozen so deep
Thinking, I've done a lot of it lately and now what
Reaching out to the place where I found you
Believing you're the one that can save me

And I can't hold back this time
Starting all over
Stronger now inside
I'm lonely no longer
'Cause this is forever
And now more than ever tonight
And I feel you by my side
You give me the breath of life

I was dreaming out loud, wishing a way out
To break free, leave it all behind me
Now the tables are turning, I'm growing up, I'm searching
I'm learning shoulda done a lot of inhaling, yeah, yeah

And I can't hold back this time
I'm starting all over
I'm stronger now inside
I'm lonely no longer
'Cause this is forever
And now more than ever tonight
And I feel you by my side
You give me the breath of life

I'm gonna make it right
I'm not afraid to fight
My eyes are open and I see the truth
That's why I can't get enough
You're the reason why
You give me the breath of life
You give me the breath of life

And I can't hold back this time
I'm starting all over
I'm stronger now inside
I'm lonely no longer
'Cause this is forever
And now more than ever tonight
And I feel you by my side
You give me the breath of life
You give me the breath of life
The breath of life
You give me the breath of life
The breath of life
