

Invincible

Shannon Noll

I remember the days
We had the world at our feet
The summer sun in our eyes
Felt the warmth on our face

And we thought
That we had it all figured out
But we never had any doubt
That together we'd touch the sky

Nothing at all could have torn us apart
We held the flames burning in our hearts
So long ago
But it feels like yesterday

We were young
We were young and so naive
We were strong
We were strong and still believed
We were invincible
We were invincible
Invincible

Life has a way
Letting us know when it's time
In the event you'll find that things
Always change

And now that we're older the things we've seen
Can't help but wonder what could have been
So long ago, it still feels like yesterday

We were young
We were young and so naive
We were strong
We were strong and still believed
We were invincible
We were invincible
Invincible

If we could turn back time would you wanna go
If we could find a way would you wanna know
If we could turn back time would you wanna go
If we could find a way would you wanna know

And now that we're older the things we've seen
Can't help but wonder what could have been

We were young
We were young and so naive
We were strong
We were strong and still believed
We were invincible
We were invincible
We were invincible
We were invincible
Invincible
