

# Mountains to Climb

Shannon Noll

This is our story, where we come from  
So many years since we became one  
Can't you see this fire still burns in me  
Breathe the sunrise everyday  
I cross this land tryna find my way  
One more step sometimes seems like so far away

These are the mountains that we have to climb  
If we truly believe  
This is our night, this is our time  
If we truly can see deep inside

You can be lonely here on my arm  
It's 'cause of you that I have remained strong  
You stayed by my side every step of the way  
Come on

These are the mountains that we have to climb  
If we truly believe  
This is our night, this is our time  
If we truly can see deep inside

So here we are at this moment in time  
Together we stand and we'll never divide  
Shoulder to shoulder we can fight  
With our lives

This is the mountain that I have to climb, yeah  
And this is my flight, this is my time  
If I truly believe  
These are the mountains that we have to climb  
If we truly believe  
This is our night, this is our time  
If we truly can see deep inside  
Yeah
