

# The Way She Loved Me

Shannon Noll

Desperately waiting for her to arrive  
Longing for strength that I lack  
Tears fill my eyes when I realise she's gone  
I know that I can't bring her back.

She used to make it so easy to love her  
She used to make me shine  
So stay if you will and I'll show you  
The way she loved me for a time.

Empty, I lie on the bed that we made  
But now I can't get to sleep  
She had a way of wearing my clothes  
And made them look better than me.

She had a heart that could light up the ocean  
She told me she was mine  
So lend me an ear and I'll tell you  
The way she loved me for a time.

Oh, I long to hold her  
Oh, I want her here to see  
Oh, how I ache for her next to me.

Desperate I wait for the day that I see her  
Hold to her deep inside  
The most perfect love that I wanted to be her  
From thte moment she caught my eye.

I light a candle for her every evening  
Pour me a glass of wine  
I will will remember so clearly  
The way she loved me for a time  
Yes I will remember so dealy  
The way she loved me
