

Come What May

Shawn Colvin

Looking uptown open every door
Take a little thing give her in between and more
Can't live without each other can't take it anymore
Somethings got to give but we never done before
Sleeping under bridges on linen sheets of white
Raising sun on morning crazy Saturday nights
Working on a label but we never get it right
We never give it up because we might

No matter what you do
No matter what you say
All that matter you
Come bright night
Come bright night

Dark wind South wind East wind West
Weathers gonna carry us anybody's guess
And when we ain't together I don't love you any less
Standing on a highway all lonely I'm a mess
Good times bad times nothing ever lasts
Better days are modeling it's cold already past
Looking at the bottom and he's squirming fast
Stopping on a dime before we crash

No matter what you do
No matter what you say
All that matter you
Come bright night
Come bright night
Anytime at all
Anytime it's night or day
Heat me when I'm cold
Come one day come one day
No matter what you do
No matter what you say
All that matter you
Come one day come one day
Anytime you call
The time to start the day
Heat me when I'm cold
Come one day come one day
