

Bad Reputation

Shawn Mendes

She's got a bad reputation
She takes the long way home
And all of my friends've seen her naked
Or so the story goes
Mistakes we all make them
But they won't let it go, no
She's got a bad reputation
But I know what they don't, ooh

And I don't care what they say about you baby
They don't know what you've been through
Trust me, I could be the one to treat you like a lady
Let me see what's underneath, all I need is you

She got a bad reputation
Nobody gets too close
A sight of a soul when it's breaking
Making my heart grow cold
And into the deeper she's sinking
I'm begging her please don't let go
She's got a bad reputation
But she's all that... all I want, though

And I don't care what they say about you baby
They don't know what you've been through
And trust me, I could be the one to treat you like a lady
Let me see what's underneath, all I need is you

Nobody knows the way that I know her, said
Nobody knows the way that time has shown us it
Nobody knows the way that I know her, said
She got it bad, she got it bad
Nobody knows the way that I know her, said
Nobody knows the way that time has shown us it
Nobody knows the way that I know her, said
She got it bad, she got it bad

And I don't care what they say about you baby
They don't know what you've been through
Trust me, I could be the one to treat you like a lady
Let me see what's underneath, all I need is you

And I don't care what they say about you baby
They don't know what you've been through
Trust me, I could be the one to treat you like a lady
Let me see what's underneath, all I need is you

She's got a bad reputation
She takes the long way home
