

# I Don't Even Know Your Name

Shawn Mendes

Oh, you waited so long  
Sometimes, it's hard to stand out  
And you, don't have to do anything else  
But be yourself  
Ooh, woah, oh

You, you dressed up so nice  
But all I could see was your eyes  
And the crowd, came, and pulled you away  
And then you were gone  
Ooh, woah, yeaah

And I don't even know your name  
All I remember is that smile on your face  
And it'll kill me everyday  
Cause I don't even know your name

Oh, everywhere that I go  
I see your face and it kills me to know  
That you'll never know what you did to me  
And now you're gone  
Yeah, I can't stop thinking 'bout you

Cause I don't even know your name  
All I remember is that smile on your face  
And it'll kill me everyday  
Cause I don't even know your name  
Yeah, I don't even know your name

I'm running, I'm searching  
And I don't know where to start  
I'm dying, my love, you punched a hole right through my heart  
And I won't stop, stop looking  
'Till I hold you in my arms  
Cause I'm running, I'm running, I'm running

I'm running, I'm searching  
And I don't know where to start  
I'm dying, my love, you punched a hole right through my heart  
And I won't stop, stop looking  
'Till I hold you in my arms  
Cause I'm running, I'm running, I'm running

And I don't even know your name  
All I remember is that smile on your face  
And it'll kill me everyday  
Cause I don't even know your name.
