

Queen

Shawn Mendes

It's hard to believe you don't remember me at all
Am I hard to recognize?
You see, asking me everytime
Yeah and I made you laugh
I still remember what I said
Guess I shouldn't be surprised
You see, I still beat you every time

I know we got a lot of mutual friends
Don't say my name, don't come up in your conversation
Yeah

Who crowned you queen of youth
You think you're too cool
Looking beautiful and perfect
The way you put yourself above me

You treat me like a [?], nothin' on you
You're looking beautiful and flirty
You're of your country
Who made you the queen?

I shouldn't stress about the fact that you're not impressed
Are you playing hard to get?
Or maybe you're not interested
I don't understand why everybody thinks you're sweet
'cause I see the opposite
No, you're not so innocent

I see the way you're lookin' through me now
To see if there's somebody cooler around
Yeah

Who crowned you queen of youth
You think you're too cool
Looking beautiful and perfect
The way you put yourself above me

You treat me like a [?], nothin' on me
You're looking beautiful and flirty
You're of your country
Who made you the queen?

No no no no
Who made you the queen?
Who made you the queen?

Who crowned you queen of youth
You think you're too cool
Looking beautiful and perfect
The way you put yourself above me
Yeah ... naaah, yeah

You treat me like a gut, nothing' on you
You're looking beautiful and perfect
You're a boo of your country
Who made you the queen?

Who made you the queen?
Yeah, you think you're too cool, nah
Who made you the queen?
Who made you the queen?
