

# The Arms of Orion

Sheena Easton

Orion's arms are wide enough  
To hold us both together  
Although we're worlds apart  
I'd cross the stars for you

"In the heart of a sleepless moon"  
"I'll be with you forever"  
"This is my destiny"  
"'Till my life is through"

[R:]  
The arms of Orion that's where I want to be  
Since you've been gone  
I've been searching for a lover  
In the Sea of Tranquility  
I'm drowning without you here, my dear

When I am lost and feeling alone  
I just look to heaven  
I find my comfort there  
God only knows where you are to night

"God only knows where you are to night"  
"Maybe time will tell me"  
"'Till then I'll close my eyes and say a prayer for you"  
(I'll say a prayer for you to)

[R]

Orion's heart is bright enough  
To shine on both of us  
The constellations never fail  
To light the way for love

'Orion's arms are wide enough'  
To hold us both together  
"Although we're worlds apart"  
( 'I'd cross the stars for you' )  
"I'd cross the stars for you"
