

# Call Me Up

Sheppard

Late at night you're lying wide awake  
Yet you're too proud to say you're not okay  
Don't be shy if you got things to say, ooh-ooh, ooh-ooh-ooh-ooh

If you fall apart (I want you back together)  
Never too far (As long as you remember)  
You're in my heart, I'll help you to start again  
(One, two, one, two, three)

So when you're down and you're out you can call me up  
If you're too ruffled to ride and you're all shook-up  
And when it's 4 in the morning I won't hang it up  
Yeah you can call, you can call me up  
Yeah you can call me up

You still laugh but it don't sound the same  
You lost so much that I can hear the pain  
Life's too short for you to live this way, ooh-ooh, ooh-ooh-ooh-ooh

If you fall apart (I want you back together)  
Never too far (As long as you remember)  
You're in my heart, I'll help you to start again  
(One, two, one, two, three)

So when you're down and you're out you can call me up  
If you're too ruffled to ride and you're all shook-up  
And when it's 4 in the morning I won't hang it up  
Yeah you can call, you can call me up  
Yeah you can call me up

So when you're down and you're out you can call me up  
If you're too ruffled to ride and you're all shook-up  
And when it's 4 in the morning I won't hang it up  
Yeah you can call, you can call me up  
Yeah you can call me up

Call me up
