

# Riding the Wave

Sheppard

Don't you know this night isn't over  
Cause I've still got this music running round in my head  
We could lose it all in this moment  
Then do it all again and again and again  
Lazy eyes, I don't wanna sound  
Crazy high, but I'm having this  
Amazing time, out here with you

It's been a good night  
We don't need a DJ to party  
No one's saying goodbye  
We're riding, we're riding the wave  
Yes it's been a good night  
And this party's just getting started  
No one's saying goodbye  
Keep riding, keep riding the wave

Moving to the thumping rhythm  
Of our beating hearts  
Nothing but our troubles missing  
We're glowing in the dark  
Lazy eyes, I don't wanna sound  
Crazy high, but I'm having this  
Amazing time, out here with you

It's been a good night  
We don't need a DJ to party  
No one's saying goodbye  
We're riding, we're riding the wave  
Yes it's been a good night  
And this party's just getting started  
No one's saying goodbye  
Keep riding, keep riding the wave

Let the waves crash down  
Pull us under now  
Lost inside the sound  
Let's rise, rise, rise

It's been a good night  
We don't need a DJ to party  
No one's saying goodbye  
We're riding, we're riding the wave  
Yes it's been a good night  
And this party's just getting started  
No one's saying goodbye  
Keep riding, keep riding the wave

Keep riding, keep riding the wave
