

Maybe This Time

Sherwood

Waiting for a sign, I used to search with every step
And even as a boy, so many things I can't forget
So if I made a list of everyone I've kissed
What would that accomplish?

I've heard it's said that I won't take a chance
But everything I've held slipped through my hands

Have I gone blind?
Maybe this time
Maybe this time
You'll give it a try
Maybe this time
Maybe this time

And now I know myself a little more and I confess
That even as a man, that I fear would get the best of me
So if I made a list of every chance I've missed
What would that accomplish?

Now I've been making eyes at you all night
Trying to decide what's on your mind

What's on your mind?
Maybe this time
Maybe this time
You'll give it a try
Maybe this time
Maybe this time

I saw the night, turn into day
I saw the sun show his tired face
Shine in to me, shine on to mine
Come see the tree shadows hang and cry
Hello

What's on your mind?
Maybe this time
Maybe this time
You'll give it a try
Maybe this time
Maybe this time
You'll give it a try
Maybe this time
