Take it and take it and take it and take it and take it all
Take it and take it and take it until you take us all
Smash it and crash it and thrash it and trash it
You're only toys
Try it you'll like it don't hide it don't fight it, just let it out
Steal and shoot it and kill it or take another route
Take it and take it and take it
You know they're only toys

Devour Devour Suffocate your own empire Devour Devour It's your final hour

Devour Devour
Stolen like a foreign soul
Devour Devour
What a way to go

You want it you want it you want it Well here it is Everything everything everything Isn't so primitive

Take it and take it and take it and take it and take it all Nobody nobody wants to feel like this
Nobody nobody wants to live like this
Nobody nobody wants a war like this

Devour Devour Suffocate your own empire Devour Devour It's your final hour

Devour Devour
Stolen like a foreign soul
Devour Devour
What a way to go
What a way to go

Diving down
Round and round
diving down
round and round

Devour Devour Suffocate your own empire Devour Devour It's your final hour

Devour Devour
Stolen like a foreign soul
Devour Devour
What a way to go

Devour Devour Suffocate your own empire Devour Devour It's your final hour

Devour Devour
Stolen like a foreign soul
Devour Devour
What a way to go
What a way to go
