

# Fly High

SHINee

Fly high, so fly high, so fly high! Go! To the sky!  
Fly high, so fly high, so fly high! Go! To the sky!

Now I'm going to try flying  
My heart burns up, engine turns up  
Unveil the dreams hidden in your heart and believe in only me  
I'll hold your hand  
Can make your dream come true

This thrilling feeling follows the sky blue light  
I won't let go of anything I will have it all  
As long as we enjoy this moment  
Even if I'm breathless, obviously I'll regret it if I stop  
Don't be afraid of bitter failure or anything  
You have to go through it all whoa ~

Fly high, so fly high, so fly high! Go! To the sky!  
Fly high, so fly high, so fly high! Go! To the sky!

Your smile gives me happiness  
We will sail through the pain in no time  
I'm gonna make that great love someday without stopping  
When you fall and when times are hard  
When you hate yourself for putting on a mask  
Be yourself! And hold my hand  
Hey! We're flying towards your dream

Now open your eyes, get up to the world, look up to the sky  
Capture those dreams with your hand and fly far away  
I'll be at your side protecting you  
Can make your dream come true

Even if I'm breathless, obviously I'll regret it if I stop  
Don't be afraid of bitter failure or anything  
You have to go through it all whoa ~
