

# Centipede Sisters

Showbread

I'm gonna shed my skin, deactivate my head  
The skin that I regenerate looks like the skin that I just shed  
I'm better suited being typical  
I keep choking down the cockroaches until I get full

A centipede! Yeah, a centipede!  
The trunk moves independently of the head  
Cant keep it quiet, no cant keep it quiet  
The lips keep moving when the brain is dead

Don't wanna keep it down, I wanna throw it up  
I just can't keep it to myself, I can't shut myself up  
Don't need no honesty, it isn't half as fun  
I just want to run my mouth  
It makes me feel like I am someone

A centipede! Yeah, a centipede!  
The trunk moves independently of the head  
Cant keep it quiet, no cant keep it quiet  
The lips keep moving when the brain is dead

I don't need to meet the arch bishop  
Don't need to shake hands in a roman cathedral  
Just drag the garbage up out of my guts  
For I am all things to all people

A centipede! Yeah, a centipede!  
The trunk moves independently of the head  
Cant keep it quiet, no cant keep it quiet  
The lips keep moving when the brain is dead
