

## side effects

Shura

I can touch the ceiling with my feet, I can, I can  
Hidden from the street with you, and I know this is not our place  
But we can always live as if it is, we can, we can  
Paris is a dream come true  
And we don't even need to explore

I got out, I got free, you don't got no hold on me  
I don't feel no side effects when you're gone  
I want love, I got some, thank god it isn't what it was  
I don't feel no side effects when you're gone

When you're gone, when you're gone  
When you're gone, when you're gone, gone, gone

I can touch the ceiling with my feet, I can, I can  
Lying by the sea with you, and I know this is not our place  
But we can always swim as if it is, weekend, weekend  
Damn this is a dream come true  
And we don't we even need to explore

I got out, I got free, you don't got no hold on me  
I don't feel no side effects when you're gone  
I want love, I got some, thank god it isn't what it was  
I don't feel no side effects when you're gone

When you're gone, when you're gone  
When you're gone, when you're gone, gone, gone

What it is, what it is, what it is, it's so good  
What it is, what it is, what it is, it's so good  
What it is, what it is, what it is, it's so good  
So good, so good

Minus thirteen, we were sleeping in all of our clothes  
Air streaming beautiful, so fucking beautiful  
I just fell in love

What it is, what it is, what it is, it's so good  
What it is, what it is, what it is, it's so good  
What it is, what it is, what it is, it's so good  
What it is, what it is, what it is, it's so good

What it is, what it is, what it is, it's so good  
What it is, what it is, what it is, it's so good  
What it is, what it is, what it is, it's so good  
What it is, what it is, what it is, it's so good

What it is, what it is, what it is, it's so good  
So good, so good...
