Together

Sia

Ooh, together
We can take it higher

I can hear the thunder
Coming from your mouth
And I know my number's up
Give me some Stevie Wonder
Quick, put it on before we go under
I can't see the lightning
Coming from your ears
Yeah, I see you're frightened
I can see the lion sleeps tonight
And the tears you're crying

Oh, you can't love me unless you love you too
Treat yourself like nothin' but a fool
Can't love me unless you love you too
Love you too

Come now set the past on fire
Stand up raise your face to the skies, my love
Together, we can take it higher
Oh, together, we can take it higher
Come now set the past on fire
Stand up raise your face to the skies, my love
Together, we can take it higher
Oh, together, we can take it higher

I can see the ranbow
Coming from your heart to your tongue
Now we kiss slow
Come now, see you're my angel
So say "Bye" to the past, "Hello" to tomorrow

Oh, you can't love me unless you love you too
Treat yourself like nothing but a fool
Can't love me unless you love you too
Love you too

Come now set the past on fire
Stand up raise your face to the skies, my love
Together, we can take it higher
Oh, together, we can take it higher
Come now set the past on fire
Stand up raise your face to the skies, my love
Together, we can take it higher
Oh, together, we can take it higher

I want love, I want to give it
I want love, please deliver it
I want love, I want to give it
I want love, please deliver it
I want love, I want to give it
I want love, please deliver it
I want love, I want to give it
I want love, please deliver it

Come now set the past on fire
Stand up raise your face to the skies, my love
Together, we can take it higher
Oh, together, we can take it higher
Come now set the past on fire
Stand up raise your face to the skies, my love
Together, we can take it higher
Oh, together, we can take it higher

Ooh, together, we can take it higher
Ooh, together, we can take it higher
Ooh, together, we can take it higher
Oh, together, we can take it higher
