

Never Mine

Sigrid

I don't wanna lose a friend
But you make it hard to feel okay
For you, for you do anything
But I don't want a bitter end
Yeah, I don't want to lose a friend

I keep thinking where you are
Between me and you, I want you back
But it doesn't make sense

You were never mine
You were never mine
Never, never, never
You were never mine
You were never mine
Never, never, never

But I see you all the time
You were never mine
Never, never, never
You were never mine
Never, you were never mine

I thought I saw it in your text
But you wanna make sure we're good again
So you can move on to the next
Baby, do I ever cross your mind?
Leaving all my love behind?

I keep thinking where you are
Between me and you, I want you back
But it doesn't make sense

You were never mine
You were never mine
Never, never, never
You were never mine
You were never mine
Never, never, never

But I see you all the time
You were never mine
Never, never, never
You were never mine
Never, you were never mine

I keep thinking where you are
Between me and you, I want you back
But it doesn't make sense

You were never mine
You were never mine
Never, never, never
You were never mine
You were never mine
Never, never, never

You were never mine
You were never mine
Never, never, never
You were never mine
You were never mine
Never, never, never

But I see you all the time
You were never mine
Never, never, never
You were never mine
Never, you were never mine

(Never, you were never mine)
(Never, you were never mine)
(Never, you were never mine)
(Never, you were never mine)
Ooh, ooh, ooh, ooh
