

Demon

Simon Curtis

Everyday's like something died
Every night there's a battle inside
Tried letting you go
Goddamn I tried
Really thought that I found love

Bury me down in the sands of time
Cover it up till it leaves my mind
Take me to the water get me baptised
I don't know where to find love

I try to run
But I know that I'll never get away
I try to hide
But it follows me around
Like a demon like a demon like a demon
It follows me around
Like a demon like a demon like a demon
My love for you will never go away

I was a fool I gave you my heart
I succumb to your magic art
Made a deal with the devil inside
I didn't know where to find love

You tore me up ripped me apart
Left me abandoned in the dark
But writing letters on a ouiji board
Was not a way to invite love

I try to run
But I know that I'll never get away
I try to hide
But it follows me around
Like a demon like a demon like a demon
It follows me around Like a demon like a demon like a demon
My love for you will never go away

How will I ever be free again?
How will I ever escape you?
How will I ever know love again?
Deeper in obsession
I can make possession I need a savior
Someone to come and rescue me
And chase this demon away

I try to run
But I know that I'll never get away
I try to hide
But it follows me around
Like a demon like a demon like a demon
But it follows me around
Like a demon like a demon like a demon
Well I may never go away

I try to run

But I know that I'll never get away I try to hide
But it follows me around
Like a demon like a demon like a demon
It follows me around
Like a demon like a demon like a demon
My love for you will never go away□
