

# Diamonds On The Dancefloor

Simon Curtis

Hey, you see me  
I know you want me  
I'ma feed your appetite  
It might, be serendipity  
That I'm here with you tonight

Ooh baby, do you wanna let go?  
We could fly away in the dark  
Ooh baby, on your ready, set go  
Feelin' it's about to start

All the time  
It's like diamonds on the dance floor invading my mind  
All the time  
It's like an explosion burning inside

All the lights begin to roll  
You don't wanna make me go (la lalala lalala lalalalalalala)  
I might lose my self control  
You don't wanna let me go (la lalala lalala la la la)

I, know I, might not seem like the type  
But looks can lead you on  
So lead on  
Baby I'll follow you  
We've got from dusk to dawn

Ooh baby, do you wanna let go?  
We could fly away in the dark  
Ooh baby, on your ready set go  
Feelin' it's about to start

All the time  
It's like diamonds on the dance floor invading my mind  
All the time  
It's like an explosion burning inside

All the lights begin to roll  
You don't wanna make me go (la lalala lalala lalalalalalala)  
I might lose my self control  
You don't wanna let me go (la lalala lalala la la la)

All the time  
It's like diamonds on the dance floor invading my mind  
All the time  
It's like an explosion burning inside

All the lights begin to roll  
You don't wanna make me go (la lalala lalala lalalalalalala)  
I might lose my self control  
You don't wanna let me go (la lalala lalala la la la)
