

# High Wire

Sinead Harnett

Golden slow motion, I hold your body in the clouds  
Balanced in silence, the wind crying out so loud

I keep tripping on your love  
You wanna take it higher  
For me it's just too much  
O-o-oh, I keep tripping on your love  
How long can you hold me up?

We're dancing on the high wire  
And you're locked into my eyes  
Didn't notice that we got so high  
Dancing on the high wire  
Gonna take love away  
And there's nothing I can do to make it right  
I'm gonna make you fall, fall  
The second that I look down  
I will make you fall, fall  
The second that I look down

Stolen emotions, I know that I'm pretending now  
Too late, there's no escape, I only see one way out

I keep tripping on your love  
You wanna take it higher  
For me it's just too much  
O-o-oh, I keep tripping on your love  
How long can you hold me up?

We're dancing on the high wire  
And you're locked into my eyes  
Didn't notice that we got so high  
Dancing on the high wire  
Gonna take love away  
And there's nothing I can do to make it right  
I'm gonna make you fall, fall  
The second that I look down  
I will make you fall, fall  
The second that I look down

Wish I could believe it, but we both know  
I can't help myself, I can't help myself  
Gonna lose my balance when the wind blows  
You better save yourself, save yourself

We're dancing on the high wire  
And you're locked into my eyes  
Didn't notice that we got so high  
Dancing on the high wire  
Gonna take love away  
And there's nothing I can do to make it right  
I'm gonna make you fall, fall  
The second that I look down  
I will make you fall, fall  
The second that I look down
