Something Wicked (This Way Comes)

Siouxsie and the Banshees

Something strange is happening My bones do ache and my ears, they do ring I could pull and tear my skin

I hear and smell and I want to scream The whispering and a scratching to be let in From outside and from within

By the pricking of my thumbs Something wicked this way comes

There's something evil on the wing Something wicked is fast approaching Rushing through a hidden wind

Nothing good is what's in store It's nothing new and it's rotten to the core And a-howling at my door

We're dragged helpless in the undertow The quicksand surround and swallow us whole

By the pricking of my thumbs Something wicked this way comes

Just around the bend Rushing on the wind Here it comes Here it comes
