

Tell me who that nigga if he ain't me
If it ain't a party then it's finna be
Never had a problem that I couldn't solve
It must be official if I get involved
Quarter pound of fire burning daily
Harder to remember getting caught up to remember
I've been through enough to drive me crazy
I don't think my mama's gonna save me
Maybe I'm not flying, but I'm floating
If we're not headed to the top, where we going?
Two miles an hour, can you picture me rolling?
Cause' life is so much better when you live in slow motion

Pardon me while I elevate
May not be on time, but I'm never late
Blazing like the player that you wanna be
Flavor like your baby mama cup of tea
You see the company I'm keeping now
Feeling like I'm dreaming, I keep feeling like I'm dreaming
Don't come around if you don't be around
I been the man you believe me now
Maybe I'm not flying, but I'm floating
If we're not headed to the top, where we going?
Two miles an hour, can you picture me rolling?
Cause' life is so much better when you live in slow motion
