

Touch Your Woman

Skeeter Davis

We can't always both be right we sometimes disagree
But you've got the right to speak your mind and it's the same with me
When the anger's at an end and you're warm inside my arms again
All you have to do to make it right
It's just touch your woman touch your woman everything's gonna be all right
Touch your woman touch your woman let me know let me know everything's all right

There are times when I should be strong when I'm awfully weak
When the sudden blows of life had brought me to my knees
Woman needs a helping hand needs someone to understand
Needs a man she loves that would stand
So touch your woman touch your woman let me know let me know everything's all right

When the busy day is done and you lay by side
You know exactly what it takes to keep me satisfied
You know exactly what I need and I'll always go to sleep in peace
Thankin' God only you belong to me
So touch your woman touch your woman let me know let me know everything's all right
Touch your woman touch your woman let me know let me know everything's all right
