

Closer

Skylar Grey

This alone making you crazy
Finger straight to the sky
You can redeem yourself
From the loss of this life

Little bird, you may not see me
But I am the wind that guides
Little bird, you may not see me
But don't be afraid to fly

I'm closer, closer than you know
Closer than you know
I'm closer, much closer
Closer than you know
Closer than you know
And nothing gets you further than this love

Little bird, you may not see me
But I am the wind that guides
Little bird, you may not see me
But don't be afraid to fly

I'm closer, closer than you know
Closer than you know
I'm closer, much closer
Closer than you know
Closer than you know
And nothing gets you further than this love
