

The Last Laugh

Slapshot

f**k you, and your entire f**ked up crew I hate you and everything you do Such a tough guy you bring your friends One on one shit your depends Ruined the scene with all this shit Never shut up just deal with it

Die, die, die motherf**ker Go hang yourself, cocksucker Bash your face in with a brick Hope your f**king car drives off a cliff House burns down while you're asleep Take a big knife and stab it deep Hope you die you piece of shit Kill yourself please make it quick

Same old story same old tale Assholes like you belong in jail 500 pounds and that's all you can do? My mother hit me harder than you I never talked shit I have the proof You're too stupid to see the truth Guess I'm too old for this shit I'll hire some f**ker to do the hit

Die, die, die motherf**ker It's your time to fry cocksucker Force feed you some broken glass Broken bottle up your ass 12 gauge blast right to your head Skull f**k you after you're dead Tied down and forced to plead I'll laugh while I watch you bleed

Ready for more?

Die, die, die motherf**ker Go and f**k yourself cocksucker Broken legs and broken back I'll smile when I hear them crack Pushed into a subway train I'll get down and eat the brains Let's give you a heart attack Then I'll have the last laugh

I'll have the last laugh
