[Joe Budden]

I disagreed with my shadow when he got on Twitter (so I) Don't like bein followed so I shot that nigga A known loner; that's backwards I'm a loner that's known to attempt to put a comber in a coma You lookin at the prime suspect, with enough stress If you can give a FLUCK, then I can give FLUCK less Obsessed with who I struck next so I set it for success when I spit cause the vic is my next metaphor Self-destructive mixed with light lies If, you lookin for psychotic, I got it Or DON'T! Maybe y'all are retarded, absurd And I observe while the whole world tries to act reserved Need a Oscar, I'll put on an act that's superb E'rybody relax, it's words Maybe it's NOT! It's gotta be reasonable doubt (BUT) Reason don't come out my mouth, I let it come out of hers
