

Motorcycle

Slayyyter

Lemme take a ride on your motorcycle
Middle of the night, under the street light glow
On your motorcycle
On your motorcycle
On your motorcycle

Touch me, touch me, I want you to love me
I want you above me, hop into your love seat
I want rock & rollers, I want rolling stoners
I'll give head in your car while you're doing donuts

Tell me all the things you wanna do (On your motorcycle)
I'm in love with your "fuck me" chest tattoo

Lemme take a ride on your motorcycle
Middle of the night, under the street light glow
On your motorcycle
On your motorcycle
On your motorcycle

Rub that grease around when you ride downtown
Boy it feels so good, rev it like you know how
Say you fuck with me, like my black hair streaks
You're my rock of love, I'm your biker queen

Tell me all the things you wanna do (On your motorcycle)
I'm in love with your "fuck me" chest tattoo, yeah

I'm gonna take a ride
O-o-on your motorcycle
O-o-on your motorcycle
O-o-on your motorcycle
O-o-on your motorcycle
I'm gonna take a ride
