

Dig

Sleeper

And the world is spinning fast
Won't you tie me to the rocks?
And good fortune never lasts
Won't you help me burn the clocks?

All the way

Dig
We might as well dig
Our way to the stars
And constellations
Yes we have no regrets
We have only debts
And destinations

Now the nights are closing in
There's a ghost inside your house
And the dogs just wear you down
Won't you let me dig you out?

All the way

Dig
We might as well dig
Our way to the stars
And constellations
Yes we have no regrets
We have only debts
And destinations

And the world is spinning fast
Won't you tie me to the rocks?
