

It was a wednesday  
I got the kool-aid  
I hear my diction  
Talking to my baby  
I wanna feel the ocean  
Put on my sunset lotion  
I see the sun glow  
Water flow in slow motion  
I got a beach chair  
I see the blonde hair  
Pick up my feet there  
I feel the cool air  
The breeze is nice now  
I'll tell you right now  
I sip my kool-aid  
I'm feeling better now

Do I need any vacation?  
Just need to get away for a while  
Wait, did I forget my sunglasses  
No  
Got 'em

I paint my nails pink  
There in the sand dome  
I hear the oh-so calling on the radio  
I see a young boy  
He on the upswing  
He gets a nose bleed  
And I hear the girls sing  
I hop on the water slide  
Gotta get my swims on  
I pull my straps up  
I'll see your better slides  
Oh no no no no no no no no

Talking about boys  
Put the music on  
I'll just start dancin'
