

Heights
Looking down from above
The sky by my fingertips the polychrome below

You wanna play it out
Live
Walking through a sea of colors

Floating through
I wanna see you lie down

It's so surreal

Kaleidoscope
Dance with the crystals down below
Spend all my time to let it go
You wanna play it out
Of my mind

I feel so right
Stop me if you want it all
Hold me down and beg
I still won't give you anything

Spent time in a polychrome
Still i got my head right
Still i got my head right
I feel alright
I feel alright

Still i got my head right
Still i got my head right

All my thoughts tessellate for you
It's been so wrong
It's been so wrong

A single breath i drew from you
It's been so long
It's been so long

I feel so right
Stop me if you want it all
Hold me down and beg
I still won't give you anything

Spent time in a polychrome
Still i got my head right
Still i got my head right
I feel alright
I feel alright

Don't wanna be in it all
Don't wanna be in it

I wanna be in it all
I wanna be in it
