

# Sublime

slenderbodies

I've been here for far too long still got too much to do  
I heard these words a thousand times but nothing sticks like yo  
u

I've been here, in the moment  
I saw it so clear  
It's all in your eyes  
I wanna be yours and you wanna be mine  
Let's take our time, we're living so sublime

I've been breathing through the night so free  
All these thoughts unwind  
Riding up my body to my ears  
Too many times

Today, I've been alone, for too long too long too long too long  
yea  
I've known your ways, for too long too long too long too long n  
ow  
Just slipped away I've been gone for too long too long too long  
too long now  
So heres the place I belong belong it's been long too long now

I've been here for far too long still got too much to do  
I heard these words a thousand times but nothing sticks like yo  
u  
I've been here, in the moment  
I saw it so clear  
It's all in your eyes  
I wanna be yours and you wanna be mine  
Let's take our time, we're living so sublime

Finally got myself to feel a bit better  
Had a bit of spare time to spend how I'd like  
Took a second to appreciate your beauty  
Still impressed at how you make me feel so sublime

I've been here for far too long still got too much to do  
I heard these words a thousand times but nothing sticks like yo  
u  
I've been here, in the moment  
I saw it so clear  
It's all in your eyes  
I wanna be yours and you wanna be mine  
Let's take our time, we're living so sublime
