

Call Me Crazy

Slightly Stoopid

Some call me crazy
You're my only lady
Ooh baby

Some don't know the way you make me feel
You're my only lady
Ooh baby

Sure looks good to me

You make me feel so good
And you make me feel like I wanted to be

Ooh, yeah, I love the way you roll up in the morning

I love the way you rise,
I love the way roll through the air

Ooh, yeah, I never knew a day without you

While heaven only knows
It's hard enough to live without you

And if you smoke till sundown
Have a drink or two

Or we can hold onto these nights
When I'm with you

Some call me crazy
You're my only lady
Ooh baby

Some don't know the way you make me feel
You're my only lady
Ooh baby

Sure looks good to me

Now why do you always leave me wanting more?
It seems that we've been down this road before

Ooh, yeah, every time I pick up and you're callin'
Ooh, yeah, it's the type of lovin' that you're fallin'

Yeah, when you do your little dance
And you're staring at me
It makes me high when you smile

'Cause I'll do anything for my baby

Let me pour you a drink
Come on closer to me
And we can smoke 'till we high

'Cause I'll do anything for my baby

Some call me crazy
You're my only lady
Ooh baby

Some don't know the way you make me feel
You're my only lady
Ooh baby
Sure looks good to me
