

Don't Fool Around Anymore

Slim Dusty

Don't fool around anymore,
Don't fool around like you have before,
Just treat me square and level
As an angel or a devil,
Don't fool around anymore.

Why drop me down like you do?
I love you so and you know I do,
You love to see me crying
While your out two timin',
But now I'm so sick of you.

I swear by all above me,
If you don't come and love me,
There'll be some changes 'round here for sure,
Believe me, don't fool around anymore,
There's no welcome mat now at my front door.
Some day you may discover,
I'll be your long gone lover,
Don't fool around anymore.
Now pick it out Baz.

Don't fool around anymore,
Be careful or I'll even up the score
Your bridges behind you burnin',
On a road with no returnin',
But now I'm so sick of you.

You lived it just like a star,
Bright clothes and jewellery, and my new car,
You think that I'll be waitin'
This time you're so mistaken,
This time you've gone too far.

I swear by all above me,
If you don't come and love me,
There'll be some changes 'round here for sure,
Believe me, don't fool around anymore,
There's no welcome mat now at my front door.
Some day you may discover,
I'll be your long gone lover,
Don't fool around anymore.
No, don't fool around anymore. No. No.
