## **This Cold Black**

Mother nature is a coward (Mother nature is a whore) No more presence, no more power I pray for death by the hour

Cut another smile into me (Into me is all you are) My artifice won?t recognize me You won?t find me anymore

Post-traumatic war machines The pessimists still won?t believe Throw away my past mistakes It's all I can to feel

Let my weapons be you children Let my armies be your damned Try to suffer on in silence Try to stop me if you can

Pneumatic destroyer, pathetic seducer Distortion sufficient Someday, one day We?ll live our lives again

My ghosts have found their way back home I have every right to kill my own (I have every right to kill my own) I am something now that never could exist

My anguish conquers all Pay the price and watch me fall My only key is broken My broken key is only me

Pneumatic destroyer, pathetic seducer Distortion sufficient Someday, one day We'll live our lives again

You utter waste of tired flesh It doesn?t matter if you can?t progress Even now they still create me Give me your ignorance, irritate me

I am made of the same debris You want it all but you didn?t want me Hypocrite with no real use I'm alive, what's your excuse?

Pneumatic destroyer, pathetic seducer Distortion sufficient Someday, one day We?ll live our lives again

Pneumatic destroyer, pathetic seducer Distortion sufficient

## Slipknot

Someday, one day We'll live our lives again We'll live our lives again
