

I hear your winter
I hear your rain
I've failed your summer ways
And I feel no pain

I hear what you want
And I feel that way
I hear what you want
And I feel that way

I hear you fade away
And I hear you crawl
I gave my life away
And I feel no pain
And I feel no pain
And I feel no pain
And I feel your pain

And she was my lover so sweet
And she was my angel
And what I've recovered of me
I put into a box underneath my bed

When you lie in your bed
And you lie to yourself
When you lie in your bed
And you lie to yourself
Lie
Lie

Bang bang you're dead hole in your head
Bang bang you're dead hole in your head
Bang bang you're dead hole in your head
Bang bang you're dead hole in your head

I hear what you want
And I feel that way
I hear what you want
And I feel that way

(This take, don't give a fuck)
