

Stay Down

Smoking Popes

Oh, let the rain fall
Let the grave call out my name
Oh oh oh

I'll be singing just the same
Let the bones break
Let the teeth ache, that's okay
Oh oh oh

I'll be smiling anyway
Everyday I spend with you
I'll be sleeping through
I am so in to what you're doing to me

Don't wake me now
And break my world in little pieces
I've got nowhere else to go, baby
Don't wake me now
I need this dream to last forever
We can make it if we just stay down

Let the blood spill
And the clouds fill up the sky
Oh oh oh

I will still be riding high

Let the shark bite
And the dark of night surround
Oh oh oh

I will still be safe and sound

Since I found myself with you
It's a dream come true
I just can't believe
What we've been sleeping through

Don't wake me now
And break my world in little pieces
I've got no where else to go, baby
Don't wake me now
I need this dream to last forever
We can make it if we just stay down

Underground, where the sound of
Disappointment, does not come around
We can stay and just dream away
Dream away

Don't wake me now
And break my world in little pieces
I've got no where else to go, baby
Don't wake me now
I need this dream to last forever
We can make it if we just stay down

We can make it if we just stay down
We can make it if we just stay down
Just stay down
Just stay down
Just stay down
Yeah yeah yeah yeah
