

Smoke Signals

Snowmine

I've been walking
Here to tow
Draw a straight line
With an artificial glow
And there's an absense
That I can't control
The wishing in my world
Am I half or am I whole?

I'm home on the shores of your smoke signal
I'm home from the shores of your smoke signal (Ooh, ohh)

Mouths are moving
As I nurse my drink
You pick a safe spot on the walk
While you tell me what to think
Our allies shooting
From front to back
We fight with daggers in her sheets
When our hearts are painted black

I'm home on the shores of your smoke signal
I'm home from the shores of your smoke signal
And I'm hard to reach from the shores of your smoke signal
Are you pleased to see me from the shores of your smoke signal

I'm home from the shores of your smoke signal
I'm home from the shores of your smoke signal
I'm home from the shores of your smoke signal
